## Black and White

The background of the page features a light gray silhouette of a group of people standing outdoors. To the left, there are detailed silhouettes of various types of foliage, including ferns and broad-leafed plants. The overall aesthetic is minimalist and artistic, using negative space and light gray tones against a white background.

The World Cup affords one the opportunity to shoot some of the best skaters in the world, gathered in one place from all across the world. The outfits also tend to be more flamboyant and brighter than what I am used to on the domestic scene in the UK. In addition, a well-lit, interesting venue complements the scene to make for more dynamic images. However, there is a time and place for black and white images to bring the intensity of the action to the fore. This booklet showcases some of my favourite images from the World Cup, converted to monochrome to bring the emotions involved into focus.
